The Very Newest Come and See

J. V. BERSCHT, The Men's and Boys' Outfitter

A Letter from B. C.

Vancouver, April 19, 1920.
Mr. H. E. Osmond, Didsbury.
Dear Sir:

Enclosed you will find cheque for \$1.50 for the Pioneer for another year. I may say we arrived here all safe and found a nice looking country, trees coming out in leaf and the grass nice and green; also flowers blooming all over. The weather has been very good with the exception of a little rain now and then to lay the dust. The fruit trees are now all coming out in bloom. We all like Vancouver very well so far; a great change from Alberta. Have read in the papers about the storms you have had since I left there and have been thinking myself fortunate to be away from it. However, I believe there are worse places than Alberta to live in, as most all countries have their drawbacks. Houses for rent are very scarce here, but there are lots of them for sale.

On Friday last I met Mr. Herb Fisher, who used to live west of Didsbury. He has a real estate office on 12th Ave., just one block from me. Also met Mr. Barky

who used to have a store in Didsbury. I am right beside some of the old timers. I believe there are quite a number of Didsbury people around here whom I hope to meet sometime.

I trust this finds yourself and family in good health as it leaves us all at present, and hope to get your paper every week.

Yours very truly,
W. H. McFarlane.

Mr. and Mrs. T. W. Cuncannon left on Wednesday afternoon for their new home at Pincher Creek.

The post office is now completely ready for business. Postmaster Hunsperger has spared no expense in fixing up the office with all the conveniences needed and the public will get good service in the new quarters.

The last report received was to the effect that Spring was seen struggling across the prairie toward Sweet Grass, but has not been seen since. Some very optimistic persons are hoping, however, that he will reach here in the course of the next six weeks.

TENNIS CLUB TO BE FORMED

Meeting for this Purpose Next Thursday

(Special Correspondent)

A tennis club is a boon to any community, being as it is, an organization which brings together people of all ages for physical and social improvement. Tennis is not strictly a ladies' game, although a good game among ladies. Though the methods of scoring may be connected with "love," there is no reference to sentiment. In fact in the club to be formed, no sentiment will be countenanced. Tennis, when played properly, is one of the fastest games of ice. It is noticed that no good tennis player will say anything that does not boost the game. Tennis has a distinct advantage over many other games in that while in almost every other sport the player only touches the ball, puck or stone at comparatively short intervals, in tennis the player is in constant action. So much for the advantages of tennis—you will find many more when you begin to play.

But to get down to business; this article is for the purpose of directing your attention to the fact that a meeting will be held Thursday, April 29, at 8 p.m., in the offices of the Royal Bank building. Anyone between the ages of 16 and 60 who is interested in tennis is cordially requested to attend. Young ladies interested in tennis are asked to give their support. We need the support of everyone. If we get sufficient support we will go ahead and make the club highly successful. We have visions of tournaments, town and inter-town. All those who have any grounds that would make a good tennis court, and which they would like to devote to a good cause, will be most welcome at the meetings.

We again ask for your support. Nothing can be done without co-operation.

Sudden Death of

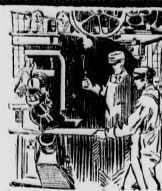

Hon. A. G. MacKay

Hon. A. G. MacKay, M. A., K. C., M. P. P., minister of health and municipal affairs in the Alberta government, died suddenly on Sunday morning after an illness of less than two weeks. He had been suffering from pneumonia, but heart failure was the immediate cause of his death.

He was active in the public life of Canada for twenty years, being a member of the Ontario government before coming to Alberta in 1912. Mr. MacKay was one of the leading members of the Alberta government before his death, and his work in the health department, which he created, and he showed splendid organizing ability during the influenza epidemic in 1919.

All his conferees in the house, both on his own side and the opposition, feel the loss of a keen mind and a human, sympathetic fellow worker.

Hon. Mr. MacKay was unmarried. His remains will be taken to Owen Sound for interment.

Labor

IN the Savings Departments of all our 400 branches the workman will find convenience and safety for his savings. The ambitious wage-earner who lives by budget—and not by chance—can thus make adequate provision for old age by depositing a fixed sum regularly. Financial independence may be gained by steady accumulation of small amounts.

Westcott Ladies Aid

There is a live, interesting Ladies Aid at work in the Westcott district. It is composed of Ladies who have many home cares, but on the second Thursday of each month they meet in some home to do work for others, and also have an inspirational half hour.

An April 8th they gathered at the home of Mrs. J. S. Finlay where they spent a busy five hours sewing for the babies of Beulah Home, Edmonton. Rev. and Mrs. Clemens were also present, the former having charge of the devotions. There is a large family in this rescue home in Edmonton, and we are sure the parcel the ladies sent will be very useful and much appreciated.

There is a hearty invitation extended to the ladies of nearby districts to meet with this society. The president, Mrs. C. F. Rennie, will be glad to inform you in whose home the meeting will be held.

Any girl can tell you that the best way to avoid catching cold is to keep your chest bare from the throat to the waistline.

Canada and the United States

In these days of almost universal unrest, words of advice and warning are so frequently uttered and written that there is grave danger of the public ear becoming dulled, and the old adage repeating itself, and the cry of "wolf, wolf" so often sounded being disregarded when actual danger is imminent.

Nevertheless, at the risk of but adding to the alarms given, the writer of this column ventures to declare without equivocation of any kind that danger is threatening Canada, the British Empire, the United States, and, through these great English-speaking nations, is threatening the world.

A deliberate propaganda is being engineered throughout the English-speaking world, but more especially in the United States, to create and develop a feeling of antagonism, of suspicion, of hate, between the people of the United States and the people of the British Empire. And because Canada is British, and the next door neighbor of the United States, no one is being left unturned to arouse an anti-American sentiment among people in this Dominion.

Traced to its source, this propaganda is the work of Germans and German sympathizers. Make no mistake about it. And the writer would say, a writer in "McClure's" magazine, and recently, "Canadians, don't fall for it." Unanimously defeated in the Great War, all her colonies lost to her, and with loss of territory in Europe, her shipping in the hands of her former enemies; her world-wide trade destroyed; her money at a ruinous discount throughout the world; burdened with an enormous debt, and with discontent and rebellion seething at home, Germany is striving almost with desperation to retrieve in peace what she lost in war. Unless she can do so, unless she can gain a new footing in world trade and commerce, Germany's position is hopeless for generations to come.

How is she to even partially regain all that she has lost? She sees but one sure, certain and fairly swift method, and that is to drive a wedge of suspicion and hate between the British Empire and the United States. Accomplish this, and the way is open for Germany to again emerge as a power in the world.

In the United States, the game is being played for Germany by certain politicians of the ward type catering for the German-American and the Irish-American vote. The game is being played by the Hearst newspapers. It is being played by the Sinn Féiners, both in the United States and Ireland.

In turn, the anti-British outbreaks fomented by these classes in the

United States are used in Canada and England, but especially in Canada, to arouse a feeling of hostility in this country towards Americans. Full use is made of the discount on English and Canadian money. Retaliatory action is urged against Hearst and other American interests. A policy of juggling and pin-pricking is being encouraged on both sides of the international boundary, not for the advantage of Canada or the advantage of the United States, but in order to benefit Germany, the enemy of both.

With a firm friendship cemented between Great Britain and the United States, it would, in the final analysis, matter little whether the League of Nations became a permanent institution or not, because united they can maintain the peace of the world; divided and suspicious of one another, no League of Nations could be effective.

Upon Canada develops an enormous responsibility. A former member of the Lloyd George Government said to the writer that great as had been Canada's contribution to victory in the war, and glorious as was the position this Dominion had won for itself among the nations, its recent achievements and glory were small indeed compared with the opportunity for world service now thrust upon it. Canada, he said, was in fact, the hostage for the future peace of the world. Situated, as this country is, a loyal and proud British Dominion, alongside the great English-speaking republic, its people had it in their power to bring about a unity in sentiment between the United States and the British Empire which alone could make permanent world peace possible. On the other hand, Canadians had it equally in their power, by unwise and ill-considered action and the development of an anti-American sentiment to do irretrievable injury to a concord between the Empire and the Republic.

Canadians should be on their guard. They should not be led astray by the political scheming, and the pro-German propaganda, across the line. This twisting of the Lion's tail does not meet with the approval of the sound commonsense of the American people. It is the work of a noisy minority. Canadians are urged to treat it with contempt. Don't take it seriously; don't mistake it for kind. Just laugh at it, and keep on striving to create an eternal friendship between the two great branches of the English-speaking family.

Great Britain Claims Nothing More in Ireland Than The United States Did in the South

When Mr. Lloyd George said in the House of Commons that De Valera is putting forward in this country "the same claim in exactly the same language as Jefferson Davis did" and that Great Britain claims nothing more in Ireland than the United States did in the South "and will stand for nothing less," he made a proper response to the Senate's recent meddlesome resolution in favor of the Sinn Féiners. It has never been difficult to put Congress on record in support of the schemes of insurrection, secession and independence on the part of other peoples, but for some reason or another such doctrines as applied to ourselves are always passionately resented. — New York World.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy. If they only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Millard's Heart and Nerve Pills. Mrs. C. A. S. Drake, Paris, Ont., writes: "I have had on several occasions second box of Millard's Heart and Nerve Pills and had they have done me good. I had those fainting, dizzy spells, nerve, a cold and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

France to Purchase Ships From Britain

England is Willing to Negotiate the Sale of Ships

Mr. Bignon, French Undersecretary for the Maritime Marine, announces that he expects important and speedy results from his visit to London and his conversation with British ministers respecting ships and coal. The attitude of the British authorities was sympathetic and conciliatory, and they expressed surprise at the charge that England is retaining more tonnage than she is justly entitled to at the expense of France. Mr. Bignon points out that France cannot expect to receive a present of a fleet, but England is willing to negotiate the sale of ships. She had to consider her own position as a sea power, and, according to Mr. Bignon, France has reason to be grateful to her for her concessions.

Crop Prospects Good

According to Dr. H. Grisdale, Deputy Minister of Agriculture, crop prospects throughout the Dominion are apparently extremely good. There have been fairly good rainfalls, and there is every prospect of plenty of moisture, while as far as can be judged at this early date seedling prospects are fair. There is a good supply of wheat, oats, and barley seed, which are described as in good condition. The Deputy Minister states that there is sufficient seed to meet all demands.

Hay Being Shipped to Alberta

Hay being shipped from the United States now is being raised of two-thirds of the amount and third being paid each by the provincial and Dominion governments. The railroads say they cannot stand their share of the burden because of the interstate commerce regulation.

In the meantime the weather is causing a great demand for hay, for the situation is being much better met than it has for some time past. There are shipments coming from several of the states, as well as from Ontario and Quebec, while there is some also from Manitoba.

Prices are continuing strong, and there is quite a wide spread. The only is being quoted on track at Calgary around 150 and 160 and orders are being filled early promptly. This is eastern timothy of good quality.

Hay is also being sent to the United States, and some Kansas hay will be on hand in a few days which will likely be needed for an amount of 200,000 tons.

Those who are getting hay from U. S. points should send the freight receipts to the Dominion and get the two-thirds rebate.

There is some government hay being received at northern Alberta points, which is being sent from Ontario, while some hay is also being received from northern Alberta points.

Strikers' Release Entirely Changed Policy of Ireland

London.—The release of the Irish prisoners was by direct order of General Sir Neville MacCreedy, and marks the beginning of an entire change in the Irish policy, according to a prominently displayed statement in the Daily Mail.

When it became clear some time ago, says the paper, that the policy of repression was leading to dissatisfactions, the premier decided to change the policy, and, if necessary, get rid of men associated with the old regime. He suddenly and without warning told J. L. McPherson, chief secretary for Ireland, that he was to be moved to the pensions ministry, and appointed General MacCreedy in command of the troops without consulting the Irish office. General MacCreedy, adds the Mail, was instructed to inaugurate a new policy of conciliation and was given a free hand. In other words, he was to supersede the existing heads of the government in Ireland.

When General MacCreedy arrived in Dublin, he ordered the release of the prisoners after an exchange of wireless messages with Premier Lloyd George, who was on his way to San Remo, according to the Daily Mail. Inasmuch as General MacCreedy reversed the policy or which Viscount French was responsible, the viceroy, the paper believes, wishes a clear definition as to whether he or General MacCreedy is the chief power in Ireland, and may come to London to inquire.

"The answer," continues the Mail, "may lead to his resignation—a contingency for which the Premier possibly planned. Names of his possible successors are being discussed in the lobby of parliament, the favorite being the Earl of Granard, although he is a Catholic and a special act of parliament would be necessary to enable him to act as viceroy."

The Mail assumes from Mr. Bonar Law's speeches that he was not informed of the decision for the release of the prisoners and says that the peculiarity of his position is being discussed in political circles.

Bavaria Predicts War With France

And For That Reason Germany Should Remain Solid

Geneva.—The Munich Post, a socialist organ, has created a sensation in Bavaria by publishing the report of a secret meeting of the Bavarian Junker Party, which was attended by some of the military officers. The meeting was presided over by Herr Von Schoch, president of the Patriotic League. The principal question discussed related to the division of Germany into two parts and the proposed overtures to be made to France to join in an attack upon Prussia. Captain Berthold, says the Munich Post, objected to the proposals, saying that the Bavarian generals would suffer the fate of Admiral Kolchak and General Denikin, the Russian anti-Bolshevik leaders. He added that another war with France was inevitable in the near future and for that reason Germany should remain solid. Several officers and politicians supported the view.

Land for Irish Soldiers

Who Volunteered For Service At The Front in 1918

Dublin.—Government officials are negotiating for 1,000 acres of land which will be apportioned among Irishmen who volunteered for service at the front in 1918. Viscount Field, Marshal French, lord-lieutenant of Ireland, promised in 1918 that land would be given to those who joined the colors, and in 1920 parliament passed a bill carrying the lord-lieutenant's promise into effect. To the present, however, only 71 men who took advantage of the offer, have been provided with homes.

The only land that can be taken under the law is that which is not subject to tenancies and it may be taken from landlords under compulsion. Recent governments have followed the policy of relieving congestion by distributing of land among small tenants, and these men are being taken to display appreciation for their claims be postponed, preference being given those soldiers. Four thousand applications for holdings have been filed, and nearly six thousand soldiers have asked for cottages.

Strikers Are Released For Treatment

Prisoners Say That Their Worst Hardship Was Uncomfortable Beds

Dublin.—It was officially announced that it is not intended to release all the hunger strikers in Mount Joy prison unconditionally, but that an order has been issued that those requiring medical treatment outside the prison will be released on parole for periods to be specified in the case of each individual by the prison doctor.

After only four of the prisoners had been removed from Mount Joy prison, the government intervened with the conditions pertaining to the reinforcement of the hunger strikers after hospital treatment.

The prisoners raised the new terms. When a danger arose that there would be a refusal of further departure from the prison by the hunger strikers, the lord mayor again visited the vice-regal lodge with a view to having order reestablished.

The lord mayor stated on this return that the prisoners would be released unconditionally.

The prisoners had refused to accept the stipulation on the ground that it was a re-negotiation of the "cat and mouse" policy.

The release of the prisoners, announced at five o'clock in the afternoon is regarded as a complete triumph for the hunger strikers and its ally, the general strike. It became known early that Viscount French had summoned the lord mayor, and that it was then only a question of terms.

It is not definitely known what the terms are, but for some days there may be contradictory statements regarding them, the trade unionists, however, have no doubt which side had won, and immediately called off the general strike to the great relief of the citizens.

The prison board also received an order that henceforth under the Defence of the Realm Act, prisoners should receive ameliorative treatment from the date of their arrest until their trial for a specific offence.

The visit to Dublin by James Thomas, general secretary of the National Union of Railwaymen, and Labor member of parliament for Derby, is regarded as having had some share in the decision for the release of some of the prisoners.

It is said that an attempt was to have been made to bring about a strike in England in support of the Irish cause. Mr. Thomas made a speech from a window of the labor executive offices endorsing the action of the hunger strikers.

The absence of military from the streets was conspicuous. There were no tanks or armored cars posted at the jail, and the barbed wire barricades had been removed. The Irish volunteers made claims of maintaining order outside the prison and were implicitly obeyed.

The released prisoners in the Mater Misericordiae hospital say that the prison staff and ordinary officers at Mount Joy were kind in their treatment of them; their worst hardship was uncomfortable beds. They were indignant at two proposals made to them by the authorities, which implied that certain of the men should desert their colleagues. Their attitude was "all or none."

To Eliminate French Language

Orange Delegation Presented Petition To Nova Scotia Council

Halifax.—A delegation from the Grand Orange Lodge appeared before the council of public instruction and presented a petition pointing out that the French language had no official status in Nova Scotia and asking that it be absolutely eliminated, either as a medium of study or instruction in primary grades.

The delegation also expressed its disapproval of the present separate school system.

The council replied that the matter will be considered.

Lisbon.—Twenty-nine persons were wounded when three bombs were thrown into a crowded theatre a demonstration here in a protest against the high cost of foodstuffs. Two syndicate workmen were arrested. During the demonstration cabinet ministers made speeches in response to the acclamations of the crowd.

Col. Morden Says Ottawa May Be Capital of Empire

Suggests United States Try Canadian Plan

Of Having An Investigation Before A Strike Is Permitted

Boston.—In a speech delivered at a luncheon here, Major-General Wood dealt with the strike situation. Referring to the Canadian plan of "having an investigation before a strike is permitted," he said: "In this way, Canada has built up a sound public opinion. We have not built up any public opinion here. We do not get the facts concerning strikes. The coal strike in Kansas, for instance, was a strike for longer working hours. The men were allowed to work only eighteen hours a week because there were no cars to move the coal and no place to store the coal, and they could not live on eighteen hours' work a week. That happened in Kansas. It has been the fault in that strike, yet nobody knew anything about it. The steel strike was something quite different; and so with the coal strike in West Virginia. We want to build up a sound public opinion here. Public opinion rules in this country."

May Break Relations

Russian Soviet and Poland Unable To Reach Agreement

Warsaw.—In rejecting further discussions regarding Borsow, on the Borsow river mouth, it of Minsk, as the place for the proposed peace negotiations of Poland and Russia, the Russian Soviet government has sent a wireless message saying it considered the last note of the Poles in the light of the ultimatum. "We are now standing face to face with the sad possibility of breaking with Poland owing to the failure to agree upon the locality," the message says.

It reiterates that the Bolsheviks are ready to accept any neutral town and suggests the possibility of holding the peace conference in Paris or London. The message concludes by saying that Russia's only alternative has been to address England, America and France.

It is expected here that the contents note to Poland on the subject will be made public in a few days.

Nominate Convicted Leaders

Labor Party Decided In Favor Of Men Who Fought In Sedition Charges

Winnipeg.—Announcing the nominations made a fortnight ago, the Winnipeg Branch of the Dominion Labor Party, at a meeting in the Labor Temple, decided in favor of the men who had figured in the sedition charges being nominated for the Winnipeg seats at the provincial elections in July.

These men are R. B. Russell, Rev. Wm. Ivers, Ald. John Queen, W. A. Fritchard, R. J. Johns, George Armstrong and R. E. Bray, who were convicted; John Farrell, who was imprisoned for sedition utterances; F. J. Dixon, M.L.A., who was charged with sedition label and was acquitted; and J. S. Woodworth, who is facing a similar charge.

They will not all be the nominees of the Labor Party, however, as it was decided to confer with other working class organizations, such as the Socialist party, the Social Democratic party, and the Ex-soldiers' and Ex-sailors' party, with a view to these organizations naming their own particular candidates. The Labor party will confine its nominees to those of the men who are members of the party, Ivers, Woodworth and Dixon.

Ninety Blind In Saskatchewan
Regina, Sask.—A survey of Saskatchewan by the provincial government at the request of the National Institution for the Blind reveals there are ninety blind persons in Saskatchewan.

Ottawa.—Addressing members of the Empire Parliamentary Association at a dinner in the Rideau Club, Col. Grant Morden, a member of the British House of Commons, declared that the idea that Canada, having become a nation within the British Empire, was strong enough to stand alone was not only a fallacious, but a dangerous view. Other speakers during the evening were Senators Foster and Hon. MacKenzie King.

Col. Morden scouted the idea that Britain had been ruined by the war. It was true he said, that Britain had a debt of eight billion pounds, but more than ninety per cent. of this was an internal debt and the balance was more than doubly covered by the loans made to the allies. This country was exceedingly poor after the Napoleonic wars, as compared with today.

Colonel Morden paid a tribute to Lloyd George, who had proved himself a leader enabling Britain to win the war, and who was now showing himself a great statesman and master of reconstruction.

Co-operation and combination was being applied in industry in Britain with success. This might apply as well to the politics of the empire at large. If the capital and experience of the motherland could be combined with the resources of the overseas dominions, then there was a bright future in sight for all parts of the empire. The empire would be able to maintain her position as first in the world. Canada had the resources and if they were wisely developed, Col. Morden would not be surprised, he said, to see the Dominion and Canada, in many senses at least, the capital of the empire. A good government, which would protect the interests of all classes, was a necessity to induce people to come to Canada, and people were coming as well as capital to develop resources.

The "broken thread of sentiment" binding the Empire should be re-forevered by the "golden chains of commerce."

Quebec Wants More Revenue

Quebec.—In an effort to find more revenue to foot the city's growing expenditures, the Quebec city council is considering various plans of taxation. It is proposed to levy a 15 per cent. tax on all business enterprises and also to pad the property valuation so as to raise by a couple of millions the revenues of the administration.

Opium Sent As Eggs

Calgary.—Twenty tons of opium, valued at \$200,000 were seized by police here. The opium was sent from Montreal to a local Chinese firm and was secreted in a case of eggs. The police are trying to locate the owner.

Was Tortured For Nearly Two Years

THEN MRS. McNEIL USED DODD'S KIDNEY PILLS

Nova Scotia Suffering From Rheumatism Told of the Benefit She Got Through Using Dodd's Kidney Pills. Hillsborough, N.S., April 19th. (Special).—I was nearly two years ago suffering the tortures of rheumatism and could get nothing to relieve me. At last I thought of Dodd's Kidney Pills and commenced to take them. "Before I had used two boxes I felt better. I have been using them for nearly six months and feel ever so much better. I will continue to use them until my rheumatism is gone."

Mrs. James McNeill, who lives here, makes the above statement. She feels that she owes it to other sufferers from rheumatism to tell them how she found relief from her suffering. She is always ready to say a good word for Dodd's Kidney Pills. Other sufferers from rheumatism tell of pains relieved and health restored through the use of Dodd's Kidney Pills. They act directly on the kidneys. They strengthen the kidneys and in short enable you to strain the uric acid out of the blood. Uric acid crystallizing in the muscles causes the pains known as rheumatism. Ask your neighbor if Dodd's Kidney Pills do not heal and strengthen the kidneys.

New Hospital Rates

At the meeting of the Hospital Board, held on Tuesday, April 13th, with all members present, after careful consideration of the needs of the hospital, it was decided to increase the schedule of patients' fees to help meet the increased cost of operating the hospital. From May 1st, the rates for all residents of the municipalities of the town of Didsbury, the Municipal District of Mountain View and Westerdale, will be three (\$3) dollars per day. For those coming from outside the bounds of these three municipalities the rate will be three dollars and fifty cents (\$3.50) per day. It is recognized that these rates will be insufficient to meet all the expenses of operating the hospital, but it is the desire of the members of the Board to keep the rates within the reach of all requiring hospital care.

Got Him to Advertise

Persistence Had Its Reward After Many Days

An advertising salesman connected with the Syracuse Post Standard told me recently of his difficulties in persuading owners of little shops in his community to advertise, and he furnished me with a concrete illustration of how persistent he has to be to secure contracts from some of them.

He told me that he had called on one man twice a week for several years. Of course, he got very well acquainted with this man. He had been a merchant in a small way for over half a century merely making a living and that's all, while he might have made a fortune had he commenced his career by employing advertising in his home-town newspapers.

This advertising salesman called on this merchant on his eighty-fourth birthday and congratulated him, remarking on his splendid physical condition and telling him that instead of looking eighty-four he didn't look a day over sixty-five.

This pleased the old gentleman so much that he said to the advertising salesman, "Well, you have been trying to get me to advertise for a great many years, and I am going to celebrate my birthday by giving you an advertisement." Whereupon he told him to insert a two-inch ad.

Now, the moral of this little story is: Keep at a business man and persuade him to advertise even if he lives to be eighty-four before he starts.

It is never too late to get started on the right track.—W. C. Freeman, in Fourth Estate.

His Party
The Countess of Warwick, who has been adopted as Labor candidate for East Walthamston, has lately been noted for her practical interest in welfare work.
One of her best stories concerns an occasion when she canvassed the humble quarters of a northern town on behalf of a well-known Labor leader, and encountered at the first house she visited a matron of the most determined character. "May I see Mr.—?" she asked. "No, you can't," answered the matron decisively. "But I want to know what party he belongs to," said Lady Warwick. The woman drew up her tall figure. "Well, take a good look at me," she said. "I'm the party he belongs to!"

Leithridge's Export Trade
Exports to the value of \$1,095,621.85 was exported in 1912. Cattle formed the biggest portion of these exports, 17,159 head having been shipped to southern points. These were valued at \$845,512.60. Horses for exhibition and ranching purposes, four potatoes, personal effects, and wool comprised the remainder of the exports. The total value of the wool exported from Leithridge in 1919 was \$515,344.95.

How He Felt
A pretty girl asked a soldier who was just discharged from the hospital, "And how did you feel when the bullet went through your arm?" "Well," said the hero, "I felt distinctly bored, don't you know?"

Steer Warships by Wireless

During Experiments Destroyer Was Manoeuvred With Not A Single Man Aboard

The British Admiralty reports considerable progress in recent tests of applying wireless control to vessels and torpedoes. Warships with crews of only a few men are regarded as an early possibility as a result of experiments. The Daily Mail says: "By using hertzian waves the wireless wizards of our fleet have succeeded in controlling torpedo craft from a distance of some miles. During the experiments a destroyer was manoeuvred by wireless with not a single man aboard. By touching the wheel, a vessel is easily steered by the invisible force. Ships' searchlights were also so turned by wireless."

SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Helped Strongly Recommend Dr. Williams' Pink Pills

There is only one way to build up a run down system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as influenza and rheumatism cause the blood to become thin and the wasting effect of these disorders cannot be combated successfully until the blood is restored to its normal condition.

Dullness, nervousness, indigestion, sleeplessness, headaches, dizzy spells, shortness of breath, palpitation of the heart, these are all the common symptoms of an anemic bloodless condition. Some of them are not naturally associated with thin blood, but the quickest way to overcome them is to make the blood rich and red.

Dr. Williams' Pink Pills do one thing and do it well. They build up the blood increasing the number of red corpuscles. As this is done the blood improves in quality the great supporter of human life. As the blood improves in quality the red corpuscles of the body are better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the first sign of improvement is usually a better appetite and better digestion.

Dr. Williams' Pink Pills have been used for years as a bloodmaking tonic and system builder with such good results that in every community there are many people who are recommended by their friends and to others who are afflicted.

Here is the statement of one of our customers, Mrs. A. Veniot, Houlton, N.S.: "I was a great sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected, that the least exertion would tire me and I slept but poorly. I was then doctoring for several months with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow his advice and got half a dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are an invaluable remedy in diseases arising from bad or deficient blood, such as rheumatism, neuralgia, effects of the grip and fever. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

QUALITY FIRST

QUALITY should be the first and main consideration in buying Lumber and Building Material.

Don't forget that.

Lumber that costs you \$2 a thousand more may really be worth \$20 more to you in the long run, because good lumber, in the first place, means less repair bills.

True, there are certain parts of buildings where the cheaper grades of stock can be economically and successfully used, but when it comes to the outside and places that have lots of wear and tear on them, get the best lumber possible, and not the cheapest.

No matter what kind of Lumber you buy here—the cheaper or better grades—we always give you the highest quality for the price paid.

Paint, Coal, and Fence Posts always on hand.

STEVENS—On Friday, April 22nd, Freda Elizabeth, infant daughter of Mr. and Mrs. J. R. Stevens, at Didsbury hospital.

AROUND THE TOWN

Train times have changed again. Look up the schedule in another column.

Mrs. K.K. Thompson and family left for Calgary on Monday, where they will make their home for the future.

W. G. Sloan, a returned soldier, has bought Mrs. K. K. Thompson's home farm, a half section, west of town.

Parker Reed has set us an example by starting the overall campaign in Didsbury. Parker says he is going to wear them on all occasions except when he goes to bed.

The boys of the public school have formed an overall club and are sporting that much disused garment. The little nippers are in their glory—no more flunkies because of torn pants.

A little floating or grading of the streets now would help a lot, now they are beginning to dry up. And why not put on a man or two to fix up some of the bad crossings? Labor will be hard to get in a very short time.

Several of our well known citizens journeyed to Calgary on Friday last to hear Sir Oliver Lodge lecture on Spiritualism. We don't think they indulged in "lipid" spirits whatever others they may have seen or heard about.

O'Brien Bros., of Hanley County, Nova Scotia, bought W. Wilson's farm northeast of town, this week. With the O'Briens, the O'Reans, Morphys and the Philippons, it has been suggested that we form a "Home Rule for Ireland Club."

On Friday evening, May 21, a party consisting of Crossfield talent, will present a farce comedy entitled "Safety First," to the Didsbury public. The farce will be put on for the benefit of the Athletic Association. Further announcement will be made later.

Mr. A. Brusso, who has been the efficient, painstaking secretary-treasurer of the town for the last five years will hand over his duties to Mr. W. A. Austin on May 1st. Mr. Brusso wanted a little more salary, but the council did not see their way clear to grant his request.

Why not start a Wednesday half-day holiday. The whole community would benefit and our farmer friends would not object so long as it was thoroughly understood that no place of business would be open on that half-day. Four months, May, June, July and August, would about get in.

An interesting exhibit and sale of the famous Canadian official war photographs is being held in the old post office building on Railway Ave. The sale of these pictures is being held for the benefit of the War Memorial fund. They were on exhibition at the Grafton galleries, London, Eng., where Mr. Austin, the lawyer, saw them first and they are considered the finest ever produced. If you have not seen them yet do so today, the last day of the exhibition.

Some remarkable talent in the music line is being brought to light each week in Didsbury. On several occasions recently a number of the leading artists have congregated in the real-estate office of Webster & Addington, where there is a perfectly good piano, and set the pace for those who possess unexcelled ability, but are a bit retiring and much too modest to head the bill. However, these individuals are getting

over their stage fright and other shy ones are edging in. Two new artists, performers on the violin and banjo, added greatly to the entertainment the first of the week. By the time all of the instrumentalists have been gathered in, the bunch will be able to present a program that will have the Pantages bill backed off the boards. Anyone who can manipulate any instrument from a Jew's harp to a tubaladum, sing a song or recite "The Face on the Bar Room Floor," is most heartily welcome on the next "sing song." When it is going to be? Don't know. Ask the boys.
